"GLOBE HUNTERS"

Hunting is a passion rooted in a specific place. It is also a wonderful invitation to travel, to go on an adventure, to push yourself... and push boundaries.

Completing a Macnab in Scotland, tracking the "attila" wild boar in Turkey, stalking a large deer in Poland, chasing partridges in Spain and woodcocks in Morocco, trailing a buffalo in Mozambique or a zebra in Namibia, shooting lake ducks or highland grouse, ambushing a chamois in the Andorran Pyrenees... dream hunts are limitless.

Defying the continents? The chance of a lifetime! Alone? Utterly reckless. You need a guide.

Throughout the pages of this new catalogue, we hope to once again pay tribute to the professionals that keep us safe on our adventures in all four corners of the world. Jean-Luc, Sebastian, Eric, Mihail, Gunhan, Jérôme, Edouard, Vernon, Anton, Sylvain, Abderrahim, Martin: these professional guides are our greatest ambassadors, and our best product testers. We hope this catalogue will teach you as much as they've taught us.

Follow the guide!

4 continents, 11 countries,
12 guides for a resolutely
international catalogue.

CHASSES INTERNATIONALES

"The invaluable help of Chasses Internationales magazine has made this catalogue possible. A huge thank you to -Jean-Philippe Bourgneuf, a very dynamic editor-in-chief."

Ultra resistant multilayer

Cordura, tear-resistant and water-repellent fabric

CORDURA
FABRIC

3 superimposed layers of anti-perforation, cut-resistant fabric in polyamide and Kevlar-based aramid fibre.

KEVLAR

Lining for comfort, optimal ventilation

Ivalo, Finland, January 2016.

Test - in extreme conditions - the Rhino dog vest.

www.arktika2.com

LVAC125

Rhino Dog Evo

Multi-layer, ultra-resistant

The Rhino Dog dog vest is ultra-resistant. It protects your dog from blackthorn, thistles, wild boar tusks and obstacles of all kinds during a hunt. It is composed of an outer layer of 100% super resistant Cordura, the famous brand of ultra-resistant fabric. Inside, it is reinforced with 3 superimposed layers of anti-perforation, cut-resistant fabric in polyamide and Kevlar-based aramid fibre. Wearing a Rhino Dog vest, your dog will be protected against the most violent attacks. Its ergonomics make the vest more comfortable and prevent any friction or burn on the limbs of your hunting companion with neoprene inserts. The inside mesh enables good ventilation. The reflective stripes show you where he is at night. The multitude of layers does not alter the physical abilities of your dog. Genuine armour to protect your dog!

Rhino dog	Teckel							Labrador
		Fox terrier		Griffon		Setter / Spanish	Short hair pointer	
Size	T50	T55	T60	T65	T70	T75	T80	T85
